After Effects CS5.5 had to be serialized on render-only machines (for example, in a render farm) due to licensing issues. In CS6, you can now run aerender or use Watch Folder in a non-royalty bearing mode, with serialization not required.

Help and tutorials

You work with keyframes and expressions in After Effects in one of two modes: layer bar mode or Graph Editor mode. Layer bar mode is the default, which shows layers as duration bars, with keyframes and expressions aligned vertically with their properties in the Timeline panel.

Animation basics in Adobe After Effects

This effect works with 8-bpc and 16-bpc color. In After Effects CS6 or later, this effect works in 32-bit color. Original (upper-left), matte layer (lower-left), and result (lower-right) Sometimes, it's easier and faster to create traveling mattes by using a track matte instead of using the Set Matte effect.

CLASSROOM IN A BOOK

Relaunch After Effects to see the scripts (that are located in the user space) under the File > Scripts submenu. However, the preferred location for the scripts is in the folder next to the application itself. If you want to explicitly copy scripts to this folder, ensure that you have administrator privileges.

New features in After Effects CC 12.2

When After Effects starts, it searches the Scripts folder for scripts to load. Loaded scripts are available from the File > Scripts menu. To run a loaded script, choose File > Scripts > [script name]. If you edit a script while After Effects is running, you must save your changes for the changes to be applied. If
