I was not able to find an online copy of the owner's manual for the Kelsey Energize controller. If you have the manual you can check the troubleshooting section. If not, I would focus on testing the vehicle wire you connected to the controller's red wire. Make sure this wire carries power ONLY when you press the pedal and at no other time.

### How to Wire Kelsey Energize Trailer Brake Controller ...

• The "Manual Slide Lever"(Figure 1) is located on the front right side of the controller. • The further the manual slide lever is moved from the right to the left, the greater the amount of trailer braking power.

### Electronic Brake Controller Hayes Brake Controller Company ...

The first Hayes trailer brake controller was invented by The Kelsey Hayes Company in Detroit Michigan in the 1950's. These original trailer brake controllers were hydraulic over electric and required a direct tie in to the tow vehicle's air or hydraulic braking system.
