Being an effective and successful leader means coaching your employees by providing frequent feedback, communicating and actively listening to build trust and to empower your staff.

How to Lead Your Employees by Coaching - Forbes

As coaches, it is hard to always know which direction to lead athletes and programs. However, as the leader of the team you must decide the direction to lead your team via your coaching vision. The first step in understanding your vision as a coach is to develop what Blanchard calls your Leadership Point of View (LPOV). This LPOV is similar to a coaching philosophy and allows you to explore how you began coaching, your overall purpose in coaching, and how you illustrate that purpose in the ...

Leading with vision: developing your coaching point of ...

Coaching can be defined as “a development process whereby an individual meets on a regular basis to clarify goals, deal with potential stumbling blocks, and improve their performance.” In other words, you can help people become better versions of themselves by holding space for them to solve problems and accomplish goals.

Coaching in the workplace: Examples and benefits

The first step in any effort to improve employee performance is counseling or coaching. Counseling or coaching is part of the day-to-day interaction between a supervisor and an employee who reports to her, or an HR professional and line managers. Coaching often provides positive feedback about employee contributions.
