"Besides managers, Mission Control is divided into flight-control and ground-team workers," said William Foster, an MCC ground controller. The ground team gathers data from the spacecraft and launch facilities and the flight control team then analyzes that data to make decisions on how best to proceed.

Film Review: 'Mission Control: The Unsung Heroes of Apollo' An engrossing behind-the-scenes look at the flight controllers and support crews that helped America win the space race.

'Mission Control: The Unsung Heroes of Apollo' Review ...

Flight controllers are personnel who aid space flight by working in such Mission Control Centers as NASA's Mission Control Center or ESA's European Space Operations Centre. Flight controllers work at computer consoles and use telemetry to monitor various technical aspects of a space mission in real time. Each controller is an expert in a specific area and constantly communicates with additional ...

Flight controller - Wikipedia

ing ground, a classroom of sorts, for many of the controllers who went on to work in Mission Control for future programs like Gemini and Apollo. Aside from Kraft, future flight directors Gene Kranz, John Hodge, and Glynn Lunney, among many others, initially worked in Mercury Control. The first mission controlled from Cape Canaveral was Mercury-Th

WHAT PEOPLE ARE SAYING

We all came here to hear Chris Kraft talk about the invention and development of Mission Control and the systems engineering and development of the Space Shuttle. I will tell you that Chris Kraft is somebody who is not afraid to express his opinions. And we are looking forward to hearing them. Chris. Good morning.

Lecture 17: Mission Control 1 | Video Lectures | Aircraft ...

Chris Kraft took on the big task of coming up with NASA flight plans, timelines, procedures, mission rules, spacecraft tracking, go/no-go decisions, telemetry, ground support, contingency management, global telecommunications, and recovery. However, the greatest achievement of Chris Kraft was creating Mission Control.
