Primavera P6 Introductory

P6 FAQ: P6 is a project management software. It is used to create project schedules, track progress, and manage resources. It is available in several versions, including Primavera P6 Professional, Primavera P6 Enterprise Project Collaboration System (EPCS), and Primavera P6 Cloud. The software is used by project managers, engineers, and other professionals in the construction, manufacturing, and other industries. It is a powerful tool for managing complex projects and ensuring that they are completed on time and within budget.
