I am not sure what the problem is but I have had two SanDisk Ultra 32GB MicroSDHC Class 10 UHS fail on me after writing approximately 16 GB of data to them. I originally purchased one card from Amazon for use in an android netbook. I wrote about 7 GB of data to it with the android netbook and was able to read back all that I attempted to read (about 40% of what was written). After one day of ...

Hi all, I'm facing an issue with my 6 months old SD card and I need help to recover some of my pictures/videos. My 32GB MicroSD has become corrupted in my phone. I have attached it to my laptop (running Windows 7) but its requesting I format (to be more precisely I had to use an USB card reader in order to be recognized by Windows/Linux as the common adapter didn't work). I have ran chkdsk ...
