Wikibooks is a useful resource if you're curious about a subject, but you couldn't reference it in academic work. It's also worth noting that although Wikibooks' editors are sharp-eyed, some less scrupulous contributors may plagiarize copyright-protected work by other authors. Some recipes, for example, appear to be paraphrased from well-known chefs.

The Reinvention Of Religious Music

Present-day music studies conspicuously evade the question of religion in contemporary music. Although many composers address the issue in their work, as yet there have been few attempts to think through the structure of religious music as we hear it. The work of Olivier Messiaen is well known for its inclusion of religious themes and gestures.

The Reinvention of Religious Music on Apple Books

For church music, Messiaen propels it ardently and boldly into the Twentieth Century, perhaps not an easy stance given potential expectations heralding from tradition and worship and the possible constraints inherent in congregational music but Messiaen takes his religious motivation and sets it distinctly in the genre of instrumental, orchestra, organ, oratorio and oratorio music, with a ...
