Science and Civilisation in China (1954–present) is an ongoing series of books about the history of science and technology in China published by Cambridge University Press. It was initiated and edited by British historian Joseph Needham (1900–1995). Needham was a well-respected scientist before undertaking this encyclopedia and was even responsible for the "S" in UNESCO.

Science and Civilisation in China - Wikipedia

Long and Short Essay on Science and Technology in English New inventions in the field of science and technology play great role in the daily lives of people and making their life style advance. In order to keep students up-do-date and check their general knowledge about new inventions, they are given this topic to write essay on science and technology.

Long and Short Essay on Science and Technology in English ...

It would be nice to have a spare six months to read Joseph Needham's mammoth Science and Civilisation in China, but I fear a few volumes of Ronan's abridgement are as much as I will ever manage. This volume, abridged from volume IV parts 1 and 3, covers matters nautical: electricity and magnetism (because of their connection with the compass), ship design and its historical evolution ...
